Java for Android

Spring Boot Professional Certification

Profile

Highly motivated and skilled software developer eager to contribute to innovative projects. A team player committed to collaboration and always ready to learn. Dedicated to delivering high-quality results on time in the rapidly evolving field of software development.

PERSONAL PROJECTS

Notes Application

- It enables users to write and store notes with titles and content, with the option to associate images from both the gallery and the camera. Additionally, it offers functionality to update, delete, and view notes through a user-friendly interface.
- Technologies Used: Kotlin, UI/UX Design Principles, SQLite.

Student Registration Dashboard

- Developed an interactive student registration form with a user-friendly interface that submits data to a database. A separate table page fetches and displays the entries, allowing real-time control and management of the data directly from that page.
- Developed an interactive Student Registration form for HTML, CSS, JavaScript, Bootstrap, SQL and PHP

Online Exam Application

- Designed an Online Exam App with intuitive UI flow. Integrated Firebase for efficient data management. Created dynamic quizzes with multiple-choice options.
- Technologies Used: Java, Android Studio.

Food For Train App

- Crafted a PNR-based Food for Train app, simplifying meal ordering, payments, and delivery for travelers with seamless PNR input.
- Technologies Used: Java, UI/UX Design Principles.
